## Occupational Health and Safety Act

### COURSE DESCRIPTION

*This comprehensive 2-day course has been developed to equip Managers, Supervisors and their teams with in-depth knowledge of the Occupational Health and Safety Act, 1993, and the Regulations as well as other related statutory requirements applicable to health and safety. Legal compliance is non-negotiable and a key performance indicator for managers and their team towards successful implementation of a SHEQ management system.*

Having the knowledge of the Act and Regulations is critical; being able to interpret the legal requirements for health and safety correctly may mean the difference between compliance and negligence.

### COURSE CONTENTS

- Module 1:** A basic interpretation of Statutes; Legal concepts and principles of OHS legislation  
Liability of legal appointees in terms of the OHS Act, Occupational Health and Safety  
Objectives of the Act; Duties and Responsibilities
- Module 2:** General Administrative Regulations; General Safety Regulations  
Regulations of Hazardous Work by Children in SA; Major Hazard Installations  
Certificate of Competency Regulations; Construction Regulations
- Module 3:** General Machinery Regulations; Driven Machinery Regulations
